## LOCAL INTELLIGENCE.

### LOCAL MINING REVIEW.

For the week ending Dec. 6, 1873.

Owing to the bad condition of the roads, and the difficulty of sending our way over the trails, we have not as full a report of the mines in the district as we would like to give. Nevertheless, we have sufficient data upon which to make a pretty fair exhibit of the mining outlook. The regular monthly payments made by several mining companies within the past few days, has had its effect upon the amount of coin which has changed hands. Yet there was not as lively a time as we generally have immediately following "payday," probably owing to the fact that the holidays are near at hand, and nearly every one is desirous of putting away a piece to meet that festive contingency. We have no rich strikes to note, and no exodus of miners to mention. Indeed, the inclement weather will not permit a stampede. But, rain or shine, snow or freeze, the underground miner pursues his avocation undisturbed.

**WASHINGTON & CREOLE.**  
Since our last review this company has been extracting some of the richest ore ever taken out in this camp—assays of which run from two hundred to three thousand in silver, and from ten dollars to one thousand in gold. The Meadow Valley mill is now working some of the ore, and the first shipment from this new development will be made to-morrow, which we understand will be between ten and twelve thousand dollars. A contract has been let to sink the Mazonia shaft (the recent purchase of the Creole Co.). When it has attained a sufficient depth it will be made the working shaft of this company. The want of air alone prevents a much larger extraction of ore. It is expected a connection will be made in a few days with the Newark works, which will give abundance of air for the future. When this is accomplished, much better results may be expected from this mine. The "Creole" now works sixty men, and have at the present writing fifty tons of ore, which will pup at least 250 dollars, of the dump, and are estimated at least fifteen tons of this ore daily. We predict a brilliant future for this mine.

**RAYMOND AND KLY.**  
Still working about the usual number of men and extracting about the usual amount of ore. The ore in the stope has not changed in appearance, looking almost as it did at our previous report. Drifting from the eighth level towards the ledge continues, there being yet only some 50 feet to run before making the connection, which will be about the 25th of this month. In the ninth level there is no material change. In the tenth level the station is in, and drifting towards the ledge will be commenced to-morrow (Monday). This work is progressing very satisfactorily under the direction of Geo. E. Ames. Everything about the mine, on the surface and underground, is moving on in the usual way.

**MEADOW VALLEY.**  
No. 3 shaft is now down 67 feet below the tenth station, making its depth 1,067 feet. Running a drift west from the tenth station, which is now in 38 feet, and expect to get into the vein in a few days. Nothing has been done in the ninth level. The east drift from the eighth level is in 405 feet. A winze is being sunk from the eighth to the ninth level, and is down 20 feet. The winze from the west drift of the eighth level has been connected with the ninth level, and affords a good circulation of air. The east drift on the 250-foot-level is in 305 feet. The west drift from the eighth station, No. 7 shaft, is in 669 feet, leaving about 30 feet yet to run before intersecting the Summit shaft. The Meadow Valley mill, in Dry Valley, is in fine running order, and is kept in motion night and day on ore from the Meadow Valley mine.

**SILVER PEARL.**  
The mine shows a decided improvement. At a depth of 400 feet the ledge is about three feet in width. Sample assays from the bottom of the incline show \$50 to the ton. Prospects generally are good. Within the past quarter the stock has risen from 25 cents to \$1.50 per share.

**NEWARK.**  
C. W. Leach was yesterday appointed Superintendent of this mine. This circumstance accounts for the failure to give any report of this mine to-day. Mr. Leach is an experienced miner, and under his superintendence we expect good results from the Newark.

**LOTISE.**  
For the past week there has been confined to the late developments on the 200-foot level. Raising and drifting on the ore vein, which is developing finely, and is from 15 to 18 inches in width, assaying from \$150 to \$300 per ton.

**PIOCHE.**  
We saw yesterday, at Butler's assay office, a splendid lot of bullion from the Pioche mine. A description of the new hoisting works of the Pioche will be given in our next review.

**HUTCH AND HUNT.**  
Still sinking in the main shaft. The ledge shows well. It is the intention of the company to sink to a great depth.

**PEAVINE.**  
Will make connection with the new shaft about the 25th, and then will commence taking out ore.

**ALPS.**  
The cross-cut at the 300-foot level is now in 470 feet from the shaft. The winze at the second level shows a good vein.

**SPRING MOUNT.**  
No change to note in this mine since our preceding review.

**PIOCHE WEST.**  
Since our previous report no change worth mentioning appears.

**CORDON.**  
Still working the mine, but there is no change worth mentioning.

**"THE ROCKY MOUNTAIN SAINTS."**  
This is the title of a book of 750 pages, containing a full and complete history of the Mormons, from the first vision of Joseph Smith to the last counsel of Brigham Young, including the land-curt emigration, the Mormon war, the Mountain Meadows massacre, the reign of terror in Utah, the doctrine of human sacrifice, the political, domestic, social and theological influences of the Saints, the facts of polygamy, the colonization of the Rocky Mountains and the development of the great mineral wealth of the Territory of Utah. By T. B. H. Stenhouse, for 25 years a Mormon elder and missionary, and editor and proprietor of the Salt Lake Daily Telegraph. It is splendidly bound, and contains a fine steel engraving of Brigham Young. Price \$5. For sale by Wiederhold.

Satisfaction guaranteed to all patrons at Sutterly & Fox's Gallery, Main St.

**ON THE RAMPADE.**—About 2 o'clock yesterday afternoon officers Woodruff and McKee arrested an Englishman or Cornishman, in a saloon on Meadow Valley street, known as "Johnny." It seems that Johnny was sadly under the influence of liquor, became very abusive generally, and particularly so toward the proprietor of the saloon, who stood behind the bar. Johnny called him all manner of vile names, and, not being able to provoke a fight, finally inaugurated a row on his own hook. He first fired a bar glass or two at the proprietor, then a small-sized ten-pin ball and then a spittoon. Neither of these missiles struck the mark, and the wonder is that the large mirror behind the bar escaped demolition. After the conclusion of the bombardment, Johnny seized an ice pick and evinced a disposition to use it upon the proprietor. This was bringing matters too near home, and so the proprietor seized a bottle of port and struck Johnny over the head with it, bringing him to the floor. The bellicose individual remained in custody by the officers, but he proved a very compliant customer, and his captors found it necessary to procure a dray upon which to convey their prisoner to the lock-up, where he will remain until Monday morning to muse upon his folly. In the breaking of a lamp globe, glasses, etc., he damaged the saloon to the amount of about \$20.

**THE SNOW AND THE RAILROAD.**—It was the belief of many that a heavy snow would effectually put a stop to railroad transit between Pioche and Bullionville, but it appears that those who so believed were entirely mistaken, and all good people will be glad of it. Within the past few days a heavy storm of snow was blown from the north, and the result will probably fall this winter has fallen, and still trains are making trips regularly on schedule time, according to the steep grade from the valley to the summit without any very great difficulty beyond that usually encountered. Colonel Raymond and the other owners of the road are entitled to commendation for the expenditure of so great an amount of capital in building and maintaining this road, which is to play so important a part in the development of the mines in this district in affording a cheap means in transportation of ores from the mines to the mills. The machinery, engines, rolling stock, etc., are all in excellent condition.

**PHOTOGRAPHS** taken in dull weather equal to those taken on bright sunny days at Sutterly & Fox's Gallery, Main St., Pioche.

**YESTERDAY** was the most disagreeable day of the season. It was cold, yet the snow thawed enough to render the ground damp and sloppy. The black clouds hanging over the country all day, giving everything a sombre and gloomy appearance.

**PHOTOGRAPHS** enlarged and highly finished in oil or water colors, unsurpassed at Sutterly & Fox's Gallery.

**WE** are indebted to Wiederhold for an assortment of late newspapers. He has plenty left, besides pictorials and periodicals.

**FOR** artistic posing and brilliantly finished cabinet and cards, go to Sutterly & Fox.

**PERSONAL.**—E. J. Travis, wife and child, Captain D. Hardy and Postmaster Carpenter, of Hamilton, left for White Pine yesterday morning.

**MICHAELS**, our worthy friend and neighbor, has just received by express a lot of the favorite French and High Life cigars, besides numerous other brands.

**SERVICES** at the COURT HOUSE TO-DAY. Rev. H. B. McBride will preach at 7 p. m. Sabbath school at 11 a. m.

**THE** Hamilton stage was late in arriving on Friday night. Everybody knows the reason why.

**THE** only person telegraphed to arrive from Hamilton by to-day's stage, is Mrs. Louise Morrow.

**MASONIC RALE.**—The Masons of Pioche advertise a ball to be given at Brown's Hall on Friday evening, Dec. 20.

## LETTER FROM ST. THOMAS.

The Deluge of Indian Agent Ingalls.

ST. THOMAS, NEV., Nov. 25, 1873.

EDITOR RECORD—Gentlemen: There are some few facts existing that should be made public concerning our present Indian Agent, G. W. Ingalls. He has treated the settlers in this part of the county in a most shameful manner.

Near about eighteen months ago he came here, bought all the grain and such goods as the settlers had to spare, promising to pay in ninety days. The time was so short that they sold all they could scrape up; some of them not saving enough for need. Last summer, in August, I think it was, he came here again, settled all up in full, giving checks on the First National Bank of Utah. The checks were protested, as Mr. Ingalls had not a dollar to his credit. The most of the settlers entrusted their checks with a Captain Bishop, of Salt Lake, a gentleman of high standing. By calling on Mr. Andrew Fife you can see a letter he wrote back here, after presenting the checks. Not alone here has he done this little job, but all through Utah have the people been gulled and humbugged in the same way. He also made the settlers believe that he was going to establish a heavy transshipment here, and cautioned them about doing any more work, consequently the most of them are not putting in any crops. He has all they raised last year, for bogus checks. They are in pretty close quarters now, and whoever lives to see the coming Spring and Summer will most likely see distressing times with some of the poor settlers in this part of the county.

The giving of bogus checks is not outside of his line of business any more than the trading off of Indian goods to the Indians for barley, and selling the barley to Pioche boys on their way to Wallapai. This, and many other dirty little thieving transactions, too small to be noticed by men, has been performed by N. W. Ingalls (or Epizotic, as commonly known), brother of the agent; but the most laughable of all transactions was in G. W. Ingalls sending back for certificates from the settlers, who they had issued so much grain to the Indians, after these vouchers and checks had been given, and saying that the checks would not be paid until the certificates were forthcoming. Now I would like to know what you, or any honest man, would think of such transactions? If the people of Lincoln county are going to be run over and brow-beaten in such a way they ought to sell out. You should lay the facts before the public, so that any future time people can be on their guard. I think it the duty of all good citizens to expose such frauds, and, if possible, bring the perpetrators to justice. I hope you will call on Mr. Fife and see Captain Bishop's letter, and if you want to make mention of any of these items I will substantiate anything I have written. I will write you again in a short time and let you know how things are going on.

**Two and One-half Per Cent.**

On the amount of capital stock, payable at the United States gold coin on the 15th day of instant.

**J. W. WRIGHT, Bank Manager.**

**Pioche, Nev., December 3, 1873.**

**PRIZES!**

**THE DRAWING OF THE PRIZES** ON THE Ladies' Fair, which was postponed at the late Fair held for the benefit of the Catholic Church, will take place at Armory Hall on the evenings of Friday and Saturday next. Holders of tickets are hereby notified of the fact. That all may have just done them, the drawing will be in the usual mode. To make the evening interesting and pleasant, the ladies of the fair will conduct a small festival, at which various articles will be up for sale. The proceeds of the festival will be devoted to a very worthy and sacred purpose—that of funding in the Catholic burying ground. Let those then who have chance in the lottery and are anxious to win their fortune, well as those who desire to show their love and respect to the dead, attend the festival at Armory Hall, on the two last nights of this week.
